

## SFARES Monthly Net Script

**Tesuque Peak 146.82 HZ; -600. PL 162.2**

Ver. 0.1

January, 2019

Is this Frequency in use? (If no response, proceed):

Good Evening. This is (Station Call), calling the regular monthly net of the Santa Fe ARES Group. My name is (XXXX) and I will be the net control station this evening. While primarily for members of Santa Fe ARES, any station within range of the NET is welcome to check in and will be invited to do so at the end of the roll call.

Is there any emergency or priority traffic?

Will someone tell me about the quality and copy-ability of my signal?

*If there is a problem with the repeater system, the backup frequencies will be ARES Repeater 147.02, -600, PL tone 141.3 or 147.555 simplex, no tone required.*

*Inform the Net regarding the change in frequency as necessary.*

In order to reduce doubling, we will commence check-in first by any mobile stations, then by Group in order of Call-Sign Suffix, that is, by the first letter following the numerical digit of your call sign. For example, if my call sign is K5XYZ, so I would check in with the 'X' group.

Check-ins will be:

- Mobile Stations
- Group one: will be letters A thru G
- Group two: will be letters H thru M
- Group three: will be letters N thru S
- Group four: will be letters T thru Z

Any mobile stations, please check in now:

I have the following mobile stations checked in:

Group one, A thru G, please check in now:

I have the following group one call signs checked in:

Group two, H thru M, please check in now:

I have the following group two call signs checked in:

Group three, N thru S, please check in now:

I have the following group three call signs checked in:

Group four, T thru Z, please check in now:

I have the following group four call signs checked in:

Any late arrivals or missed stations please check in now:

I have the following additional check-ins:

If we have any visitors please check in now:

Thank you all for checking in. Does anyone have any announcements to make?

**(If there is a topic to be discussed on the net, proceed at this time)**

Is there any other business for the Net?

Don't forget our monthly meeting next Saturday at (location). It will start at 8:30 AM and run for 2-3 hours depending on business or training.

This concludes our NET for tonight. This is K5XYZ net control clear.

\*\*\* Release PTT to allow repeater timers to reset.
